2023 FOOD CATALOGUE

F&E TRADING

Background of EGI Group and its Mission

Egi Group was founded in 2017 by Mr. Egzon Kelmendi. One of our flagship brands is Pi & Ki, which started with the production of hygienic products before expanding into other areas. Our Pi & Ki brand factories are ISO certified and operate at the highest standards, utilizing the latest and most advanced technology available. In 2020, we made history by becoming the first company in Kosovo to offer Kosher certified products with our Pi & Ki line.

Our productions are manufactured to the highest standards of precision under the close supervision of our professional staff, in accordance with rigorous production standards such as HACCP, Halal Certification, KOSHER, ISO 22.000, and 9001. At our company, we take great pride in our products' quality and professionalism, which has enabled us to expand our market reach beyond our borders. In 2018, we began exporting our products to various European and American countries, confident in the quality and appeal of our offerings.

In 2022, we established in Switzerland a distribution center under the name F&E Trading GmbH as the next phase of our growth strategy. This facility serves as a hub for sales and customer support to customers from Switzerland, Germany and Austria. Our continued expansion in the region is a testament to our commitment to providing exceptional service to our customers and meeting their needs with greater efficiency and convenience.

PASTA

The pasta factory is divided into three production lines: pasta, spaghetti and vermicelli.

Production and packaging of pasta is done by the latest Italian technology machines, from the raw material durum flour 100% of high quality, with staff trained by an Italian expert, resulting in the production of high-quality pasta.
